FINNMASTER HUSKY

2025 ENG

Strong tradition, modern design

In an archipelago like ours, which is as wild and melancholic as is it beautiful and marvellous, boats are so much more than a means of transport. They are freedom, passion, and tradition, but above all, a lifestyle.

Finnmaster boats are a testimony of the strength that lies within the Finnish boatbuilding tradition. That heritage is passed on from generation to generation, and it's still a big part of our daily life: year after year, that knowledge and passion is carried on to each and every boat we design and build at our boatyard.

While the art of boat-making has its roots in history, our eyes are not glued in the past. Instead, we keep looking forward at new ideas, technologies, and ways of being better.

As demanding as designing a boat to perfection is, when our customers step on board, that lifestyle, a sense of freedom, is what we wish for them to receive – riding the waves, smelling the sea air, in peaceful solitude or good company.

Cabin

Are you looking for a cabin boat, weekend boat, fishing boat, SUV boat? Finnmaster Cabin motorboats are sensible choice for all these purposes.

Pilot 8 pages 4-5

Pilot 7 pages 6-7

Day Cruiser

You shouldn't have to choose between a sporty or a comfortable boat. The Finnmaster day cruisers combines both.

6,33 m	2,31 m	0,40 m	1160 kg	7	2	130-200 hp	C

The Finnmaster T6 Day Cruiser is clearly as beautiful, fun and practical as its big sisters in the T-series. But in the T6 you get more boat in a smaller size. It's versatile with a cockpit sofa seating for even a large group and it can easily be converted into a comfortable sundeck for those sunny days. The short bow, the stylish hull graphics and the modern LED docking lights finish the overall sporty impression. The sturdy hull guarantees excellent maneuverability for versatile and safe boating.

Standard equipment

· Internal fuel tank, 132 litres
· 9” Chart plotter
· Hydraulic steering
· Windscreen wipers
· MarineMat on cockpit floor
· Canopy
· Canopy garage
· Cushions, Silvertex Carbon

S5

Length	Beam	Draft	Weight	Persons	Engine	CE category
5,60 m	2,27 m	0,40 m	650 kg	6	60–100 hp	C

The Finnmaster S5 is the perfect center console boat, and it is exceptionally convenient as a transport boat. Because the Finnmaster S5 is equipped with steps at both the bow and the stern as well as on the sides it is easy for the whole family to step on board. Undoubtedly, the best thing about the Finnmaster S5 boat is the large steering console. From behind it, you have full visibility while you and your passengers sit comfortably protected from the wind.

BLACK EDITION

BE STRONG

The features of the Husky hybrid hull have been designed in cooperation with Finland's leading boat designers. In the design, special emphasis has been placed on the stable and safe driving characteristics in any weather. High freeboards, sturdy steps, an open foredeck, and a shaped windshield increase the safety and comfort of both the driver and passengers.

GET WILD

The boat combines the best properties of two boat building materials. The durable, strong, fully welded aluminium frame combined with the fiberglass deck allows for an optimised design that ensures complete travel comfort.

The husky works stably even in rough seas and damping pedestals of the pilot and co-pilot seats make driving even more pleasant. Driving properties are also enhanced by the dark surfaces of the dashboards, which reduce sun reflections. Black railings and cleats bring a new look and further enhance the quality of the whole.

HAVE FUN

Boating should be comfortable, relaxed and effortless. The Husky is ideal for summer cottages and transporting, day boating, water sports and fishing. The boat is easy to navigate, with plenty of seating and sensibly designed details that make boating safe for all ages.

Husky R8

Length	Beam	Draft	Weight	Persons	Engine	CE category
7,73 m	2,47 m	0,46 m	1946 kg	8	225-300 hp	C

The Husky R8 is a well built aluminium boat which is equally agile as ready for comfort. Thanks to its well designed aluminium hull, the Husky R8 takes rough sea in an agile and easily manoeuverable manner. In the fore, there is an L-shaped sofa which contributes to high comfort for your passengers. The high windscreen protects all your passengers and you sit comfortably and safely in the big U-shaped sofa in the aft. A space that may also be converted into a big sun deck when the weather allows.

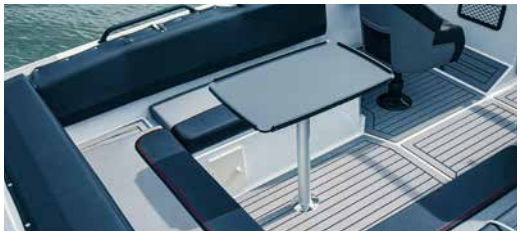

Standard equipment

· Internal fuel tank, 214 litres

Husky R7

Length	Beam	Draft	Weight	Persons	Engine	CE category
6,68 m	2,34 m	0,44 m	1564 kg	7	130-200 hp	C

It has never been easier to explore the skerries as with the Husky R7 aluminium boat which is both quiet and stable. The sturdy aluminium hull stands even the rough seas and in case the weather turns, the canopy is stowed to be easily accessible – as soon as it starts blowing. With the open foredeck with its smart fender storage, comfortable seats and a generous U-shaped sofa which is easily converted into a sun deck, the Husky R7 is simply the perfect boat to spend a day at sea in – with the whole family.
